

Laurie who ??? Muggleton of course !!!

Tho' well you might ask

Because, from 2002 til 2013 I'd been on a bit of a vacation due to health issues. They've been resolved, and my enthusiasm for Singing, Entertaining, and being part of Australia's Country Music Industry is once again foremost on my mind.

In September 2013, I played Country Music Fan and visited the Mildura Country Music Festival. This turned out to be a successful attempt to revive my desire toward venturing back into the career I'd enjoyed so much for thirty years.

Returning home with "A Plan", Tamworth 2014 was my next port of call to fuel my self confidence, and begin to reinvent Laurie Muggleton the Entertainer.

Wow I now know how a fish out of water feels

March 2014 saw me in Stuie French's "Swingin' Door Studio" recording my latest CD, "Simply Living". With a collection of some of my favourite songs, composed by some very revered Australian Writers/Entertainers, and access to some very talented Musicians, my project "Simply Living" has come to fruition.

July 2014 will see me, with guitar and product in hand, in pursuit of festivals, venues and audiences to share my love of music with. To return to what I've missed dearly, and enjoy doing most Entertaining

Laurie Muggleton is once again "A Work In Progress" and looking forward to entertaining you in the very near future.
